EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brent Little on March 28, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 13-18.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is the inclusion of the optical via introducing less than 0.1 dB of excess loss in a band of wavelengths between 1510 nm and 1620 nm. The prior art of record do not teach or fairly suggest an optical via having the same claimed features and that also operates within the same claimed bandwidth while maintaining similar low excess losses throughout the entire bandwidth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional patents listed on the attached form PTO-892 disclose alternate optical vias for planar waveguides but are merely cited to show the relevant state-of-the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Omar Rojas whose telephone number is (571) 272-2357. The examiner can normally be reached on Monday-Friday (12:00PM-8:00PM).
